Evey Huang, PhD

jiaxinh.evey@gmail.com | www.eveyhuang.com

Academic Positions

Research Assistant Professor — Northwestern University, Kellogg School of Management (Jul 2026 - Present)
Postdoctoral Researcher — Northwestern University, Kellogg School of Management (Feb 2025 - Jun 2026)

Education

PhD, Technology and Social Behavior (HCI, Joint Program: Computer Science & Communication Studies)
Northwestern University, 2024
Advisors: Elizabeth Gerber, Matthew Easterday

M.S., Technology and Social Behavior
Northwestern University, 2023

BA, Economics; Berkeley Certificate in Design Innovation
University of California, Berkeley, 2017

Research Interests

I study human–AI collaboration where the human is part of a team or organization—working with others to tackle complex problems in science, entrepreneurship, and knowledge work domains. I ask how AI can make distributed & tacit expertise usable by teams, reveal how collaboration unfolds, and shape the ideas and judgments that groups produce. I bring methods from HCI, design, and computational social science to these organizational questions, while using advances in AI both to study collective work and to change how it happens.

Publications

Peer-Reviewed Conference & Journal Publications

- Huang, E., Easterday, M., Gerber, E. (2025). AI That Helps Us Help Each Other: A Proactive System for Scaffolding Mentor-Novice Collaboration in Entrepreneurship Coaching. CSCW 2025. (Presented in Bergen, Norway.)
- Huang, E., Sarma, A., Hwang, S., Chandrasekharan, E., Chancellor, S. (2024). Opportunities, Tensions, and Challenges in Computational Approaches to Addressing Online Harassment. DIS 2024. Best Paper Honorable Mention (Top 5%).
- Huang, E., Rees Lewis, D., Gaudani, S., Easterday, M., Gerber, E. (2023). Intelligent Coaching Systems: Understanding One-to-many Coaching for Ill-defined Problem Solving. CSCW 2023.
- Carlson, S., Lu, K., Huang, E., Gerber, E., Easterday, M. (2020). Designing a Model for Deliberation-Based Learning. ICLS 2020.
- Sterman, S., Huang, E., Liu, V., Paulos, E. (2020). Interacting with Literary Style through Computational Tools. CHI 2020.
- Kim, J., Gong, T., Kim, B., Park, J., Kim, W., Huang, E., et al. (2020). No More One Liners: Bringing Context into Emoji Recommendations. ACM TSC 2020.

Peer-reviewed Workshop Publications

- Huang, E., Groh, M., Abrams, D., Uzzi, B. (2025). Evaluating Multimodal Language Models for Annotating Team Behaviors in Videos. IC2S2 2025. (Presented in Linköping, Sweden.)
- Huang, E., Garg, K., Gómez-Zará, D., Hui, J., Kulkarni, C., Massimi, M., Churchill, E. F., Gerber, E. (2023). Supporting Workers in Developing Effective Collaboration Skills for Complex Work. CSCW 2023 Companion.
- Huang, E., Rees Lewis, D., Easterday, M., Gerber, E. (2023). Designing Technology to Support Coaching in Informal Learning Environments. CHI 2023 Workshop.
- Huang, E., Easterday, M., Gerber, E. (2022). Designing Intelligent Coaching Systems to Support Equitable Engagement in Making. CHI 2022 Workshop.

Manuscript Under Review & Preparation

- Huang, E., Grey, A., Chalekson, M., Uzzi, B., Groh, M., Measuring Catch and Toss and Its Impact on Entrepreneurial Pitching. [**Submitted**] to *Organization Science* Special Issue: AI-Enabled Frontiers in Organizational Science
- Grey, A., Huang, E., Groh, M., How Teams Regroup in the Seconds After a Setback. [**Submitted**] to *Organization Science* Special Issue: AI-Enabled Frontiers in Organizational Science
- Huang, E., Uzzi, B., Groh, M. Measuring What Matters in Teams with Multimodal AI. [**R & R**] at *Journal of Organization Design* (2026).
- Huang, E., Chalekson, M., Groh, M., Abrams, D., Uzzi, B. Multimodal AI for Large-Scale Scientific Team Behavior Analysis. In preparation to submit to Nature Machine Intelligence.

- Huang, E., Groh, M., Uzzi, B. Double Compression: How AI Narrows Both the Generation and the Gatekeeping of Scientific Ideas. In preparation to submit to PNAS

Dissertation

Huang, E. (2025). Human-AI Collaboration for Entrepreneurship Coaching: Leveraging a Cognitive Model and an LLM to Provide Proactive, Adaptive, and Differentiated Support. PhD Dissertation, Northwestern University. Defended November 11, 2024.

Grants & External Funding

[2026] Microsoft AI and the New Future of Work

- Title: Building Behavioral Process Models from Real Teams with Multimodal AI
- Role: Independently wrote the full proposal
- Amount awarded: $75,000;
- PI: Brian Uzzi

[2026] Google DeepMind & Stanford HAI AI for Organizations Grand Challenge

- Title: TeamLens: AI-Powered Analysis of Team Collaboration Processes to Surface Collaborative Engagement in Real Time
- Role: Wrote and presented the proposal
- Result: Finalist (top 2% of 250+ proposals from 150+ universities worldwide).
- PI: Brian Uzzi, Matthew Groh

Awards & Honors

- Best Paper Honorable Mention (Top 5%) — ACM DIS 2024
- Special Recognition for Outstanding Reviews — CSCW 2022, CHI 2024, UIST 2024
- Advanced Cognitive Science Fellow — Northwestern University, 2021–2022
- Segal Design Research Fellowship — Northwestern University, 2021–2022
- Google PhD Fellowship — Department Nomination, 2021
- Microsoft PhD Fellowship — Department Nomination, 2021

Invited Talks & Presentations

- AI for Organizations by Stanford HAI and Google DeepMind – May 2026, Stanford, CA. Topic: Teams-AI Partnership: Using Multimodal AI to Reveal Collaboration Dynamics
- Microsoft AI and Society Research Seminar – April 2025, Evanston, IL. Topic: Proactive human-AI collaboration.
- Northwestern Center for Behavioral Intervention Technologies (CBIT) – May 2025, Evanston, IL. Topic: Proactive human-AI collaboration.
- Designing with AI — Guest Speaker, December 2024 & February 2025.
- Northwestern Design Cluster — April 2023.

Teaching and Mentorship Experience

Instructor & Coach — HCI Studio (Project-based Learning), Northwestern University (Fall 2023, Winter & Spring & Fall 2024)

- Coached interdisciplinary teams of 3–5 undergraduates — CS engineers and non-technical designers/communicators — through the full human-centered design process: problem framing, user research, ideation, prototyping, and real-world evaluation
- Mentored 200+ students across 4 terms; translated between technical feasibility and creative vision; received consistently strong student feedback for coaching quality and accessibility

Instructor — Introduction to Natural Language Processing, Northwestern University (Fall 2022, 2023)

- Designed and taught NLP curriculum for undergraduates with zero prior programming or CS background; developed accessible instructional materials bridging technical concepts and practical application

Teaching Assistant — Communicating Your Research, Northwestern University (Fall 2021)

- Co-developed course materials and facilitated in-class activities for master's and PhD students on communicating complex research to diverse audiences

Graduate Student Peer Mentorship

- Provided tailored feedback and research support to peer PhD students in weekly pair-research sessions covering research design, writing, and project strategy

Undergraduate & Graduate Research Mentorship

- Ava Grey - Master student at Columbia University
- Max Chalekson - Master student at Northwestern University
- Trisha Krishnan - AI Robotics Intern at Bright Machines
- Shubhanshi Gaudani - Software Engineer at Microsoft

Service

Conference Organizing & Editorial Roles

- CSCW 2025 — Web Chair
- CSCW 2024 — Workshop Organizer (Collaboration Skills for Complex Work)
- HCI+D Conference, Northwestern 2022 — Poster Session Organizer

Paper Review

- CSCW: 2022 (Special Recognition for Highly Useful Review), 2024, 2025, 2026
- CHI: 2021, 2022, 2024, 2026 (Special Recognition for Outstanding Reviews)
- UIST: 2024 (Special Recognition for Highly Useful Review), 2026

Community Service

- 2020, 2022, 2023 — Organized Northwestern alumni events at CHI and CSCW conferences
- 2019–2023 — Social Event Organizer, School of Communications, Northwestern University
- 2020–2025 — Panelist and Volunteer, Northwestern University PhD Interview Weekend
- 2019–2023 — Board Member, Women in Science and Engineering Research (WISER)

Professional Experiences

AI Advisor & Forward Deployment Engineer — Novohaven (Remote, US/China, Oct 2025–Present)
AI Technical Advisor — Spark AI (EdTech startup), China (Remote, Dec 2024–Dec 2025)
UX Researcher — Northwestern Memorial Hospital (Chicago, IL, Jun–Aug 2022)
Research Intern — KAIST — Kixlab (Daejeon, South Korea, Jun 2018–Jun 2019)
Undergraduate Research Assistant — UC Berkeley, Hybrid Ecologies Lab (Berkeley, CA, Jun 2017–Jun 2018)

Skills

AI & Machine Learning

- Machine learning: classification, random forests, clustering, topic modeling
- AI: Neural networks, NLP, deep learning (PyTorch, TensorFlow), LangChain, Hugging Face, Multimodal AI (vision + language), LLM-as-a-judge

Programming & Engineering

- Python (primary); data science: Pandas, NumPy, R, scikit-learn
- Full-stack web development: JavaScript, React, Node.js, React Native
- Backend: Flask, Django, FastAPI; databases: MongoDB, MySQL, Firebase
- Cloud & data pipelines: AWS; HTML/CSS, REST API design

Research Methods

- Design Research: Research-through-design, participatory design, co-design, prototyping, experiment design, system deployment ...
- Qualitative Methods: Ethnography, interviews, usability testing, heuristic evaluation, cognitive walk-through, wizard of oz studies, think aloud, cognitive task analysis, interaction analysis ...
- Quantitative Methods: Statistical analysis, topic modeling, cluster analysis, semantic analysis, survey design, interaction log analysis, ...
- AI: LLM-as-a-judge, multimodal LLM, AI evaluations measurements
